# Hazardous Weather

## Friday: Small Chance for Showers, Storms

Afternoon and Evening

Weather Forecast Office

Amarillo, TX

Issued Jul 31, 2020 2:49 AM CDT

Friday afternoon and evening bring a small chance for showers and storms, mainly to the western Panhandles. Severe storms are not expected.

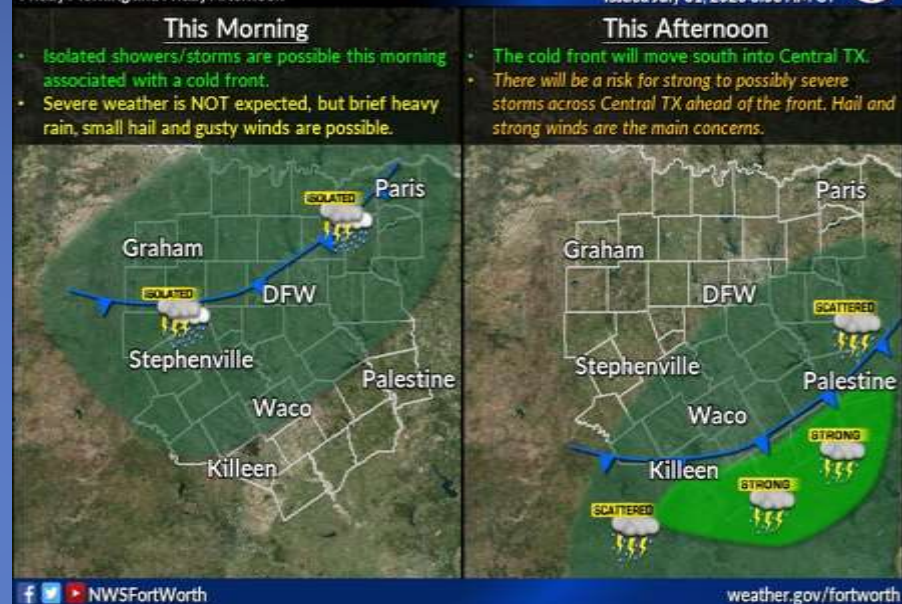

## Today: Rain/Storm Chances with a Front

Friday Morning and Friday Afternoon

Weather Forecast Office

Fort Worth, TX

Issued July 31, 2020 3:58 AM CT

A cold front will slide through North and Central Texas through the day today. Accompanying the front will be a risk for showers and thunderstorms across the area. Severe weather is unlikely this morning, though the strongest storms may produce small hail and/or gusty winds. This afternoon, rain chances increase, mainly across Central TX. The risk for strong to possibly severe storms will increase some with the main threats being quarter sized hail and strong to possibly damaging winds.

# Hazardous Weather

## Friday Highs / Rain Chances

High temps and rain chances from 7am to 7pm Friday

Weather Forecast Office  
Lake Charles, LA

Issued Jul 31, 2020 6:42 AM CDT

**Friday:** An upper trough moving through the area ahead of a "cold" front will provide shower and thunderstorm activity throughout the day and into tonight. Temps will be in or near the 90s with winds out of the south/southwest at 5-15 mph.

## Overnight Lows / Rain Chances

Low temps from 7pm Friday to 7am Saturday

Weather Forecast Office  
Lake Charles, LA

Issued Jul 31, 2020 6:46 AM CDT

**Overnight:** Numerous showers can be expected as a "cold" front moves through the area. Temps will be in the mid to upper 70s for morning lows with winds out of the west / SW at 0 to 5 mph.

# Hazardous Weather

## Today

Continued warm with afternoon showers and thunderstorms

Weather Forecast Office  
Houston/Galveston TX  
Issued Jul 31, 2020 5:16 AM CDT

A weak cold front will bring a chance of showers and thunderstorms late this afternoon into tonight. A few of the storms could be strong with gusty winds and some hail. Highs today will warm into the mid 90s.

## Another Warm/Humid Night

A few Showers and Storm Possible

Weather Forecast Office  
Corpus Christi, TX  
Issued Jul 31, 2020 4:09 AM CDT

Humid and mild conditions are expected again tonight with lows in the mid to upper 70s. A few showers and thunderstorms are possible across the area.

# Hazardous Weather

## Today | Warm Under Partly Cloudy Skies

Isolated Showers/Storms Possible | Favorable Marine Conditions

Weather Forecast Office  
Brownsville/RGV, TX  
Issued Jul 31, 2020 4:50 AM CDT

Another warm and humid day across Deep South Texas, with highs in the mid-upper 90s. Afternoon heat indices will range from 105-110F. There could be a few showers/thunderstorms this afternoon, but most locations will remain dry. Marine conditions will also generally remain favorable today.

## Pleasant Night

Isolated thunderstorms early near the TX/NM state line

Weather Forecast Office  
Lubbock, TX  
Issued Jul 31, 2020 4:13 AM CDT

Thunderstorms will be possible early in the evening near the Texas/New Mexico state line. Otherwise, partly cloudy to clear skies will persist tonight into early tomorrow morning.

# Hazardous Weather

Weather Forecast Office  
Midland/Odessa, TX  
Issued July 31, 2020 3:32 AM CT

## Temperatures

## Rain/Storm Chances

NWSMidland

weather.gov/maf

Temperatures will be near normal today with a chance of thunderstorms.

Tonight

Weather Forecast Office  
Midland/Odessa, TX  
Issued July 31, 2020 3:36 AM CT

## Temperatures

## Rain/Storm Chances

NWSMidland

weather.gov/maf

Temperatures will be near normal tonight with a chance of thunderstorms.

# Hazardous Weather

## Today

**Highs Today**

A cold front will move through the area this morning, bringing a chance for showers and thunderstorms, mainly to areas south of an Ozona to Brownwood line.

Some of the storms near the I-10 corridor could become strong to severe. Main Hazards:

- Damaging Wind Gusts

-Hail

- Cloud to Ground Lightning.

## Tonight

### Overnight Lows

Showers and storms will continue to be possible through the overnight hours, mainly south of a San Angelo to Brownwood line.

Some of the storms near the I-10 corridor could become strong to

severe. Main Hazards:  
-Damaging Wind Gusts

**-Hail**

- Cloud to Ground Lightning.
